

Press Conference: Dr. Aseem Malhotra's New Peer-Reviewed Paper Calls for Immediate and "Complete Suspension" of Covid-19 Vaccine

The World Council for Health hosted a press conference in London on September 27, 2022 featuring one of Britain's most influential cardiologists: **Dr. Aseem Malhotra**.

Dr. Malhotra presented on [his new peer-reviewed paper](#) published in the *Journal of Insulin Resistance* and was joined by Dr. Ryan Cole, a pathologist from the United States, and Dr. Tess Lawrie, Director of E-BMC Ltd and EbMCsquared CiC and member of the WCH Steering Committee.

In a two-part paper entitled "[Curing the pandemic of misinformation on COVID-19 mRNA vaccines through real evidence-based medicine](#)," real-world data reveals that

in the non-elderly population the number needed to vaccinate to prevent one death from Covid-19 runs into thousands and that re-analysis of randomized controlled trial data suggests a greater risk of suffering a serious adverse event from the vaccine than to be hospitalized with Covid-19.

“We must use this as an opportunity to transform the system to produce better doctors, better decision making, healthier patients and restore trust in medicine and public health. Until all the raw data on the mRNA Covid-19 vaccines have been independently analysed, any claims purporting that they confer a net benefit to humankind cannot be considered to be evidence based,” Dr. Malhotra concludes.

Who is Dr. Aseem Malhotra?

[Dr. Aseem Malhotra](#) is an award-winning Consultant Cardiologist, Fellow of the Royal College of Physicians, and President of the Scientific Advisory Committee – The Public Health Collaboration. Dr. Malhotra is an internationally renowned expert in the prevention, diagnosis and management of heart disease. His areas of expertise include evidence based medicine and collaborative shared decision-making with patients. Aseem Malhotra is also an honorary council member to the Metabolic Psychiatry Clinic at Stanford University school of medicine California.

God bless you for finally breaking through the wall of lies with a fire-hose of truth. I just wish it hadn't taken so long – so many lives have been lost. How how do we undo the damage caused by these fraudulent jabs??? Please make that your new mission!!!

I totally agree ..First we where frightened and bullied to have the vacine! Now we feel frightened and somewhat bullied that we are going to suffer appalling consequences.
This is never-ending.

Jason says:

You have to remember who frightened and bullied you and hold them accountable. If it's a news network, stop watching; political party mandating the vax, vote them out at all levels; Doctors or employers, sue them into oblivion. Remember, if you are ever on a jury, it is your duty to hold them accountable.

Going forward, you have to learn how to be a free-thinker. Before the vax was released, three red flags:

1. You can't speed up testing, two years takes two years, five takes five.

2. No other vax was ever released in ~4 months instead of 5-12 years.
3. Only around 3% of meds/vaxes are ever approved...all the rest fail...which gives a failure rate too high for me.

#1 and #2 was all it took for me to take a you-first stance. Luckily my immediate followed my logic but some in-laws didn't....one dead from cancer, one alive with cancer and 3 with prion diseases...think dementia.

Now, I would be heavily invested in research on how to counter the vax. The information is out there, but no one REALLY knows if it will work long-term, but it's worth a try.

The thing that frightens me the most is that here in Canada Dr. Tam(health minister)is on tv commercials trying to get people to have yet another deadly vaccine and oh by the way they are safe for your children. These people need to go to jail. Plus thousands of people were fired from their jobs for refusing to be vaccinated and they are still being refused at Vancouver general hospital unless fully vaccinated. Many doctors are refusing to see their patients unless they are fully vaccinated.

A great press conference thank you. However Dr Aseem still doesnt see that most of vaccine history has done more harm than good.

I think that will come in time. As Dr Yeadon recently admitted he only really properly looked into the flu vaccine (see Radical interview with Nawaz), and realised the stark truth that these were also a fraud. There are some massive, well-embedded lies that BigPharma have skillfully covered up for generations. And it will likely take generations to uncover them all and bring some of these people to account for their sinister crimes against humanity.

He hasn't had any children...yet. That seems to push people into investigating these things more fully – certainly did for me when my son developed serious eczema straight after his first jabs aged 8 weeks and nothing else in his young life had altered.

People take the advice of their doctors. Up until recently we thought they had some knowledge of health. It has been news to many that they are educated by a malicious, ill intentioned group of bought and paid for big pharma

puppets. One cannot blame people for trying to do the right thing. We need to re educate the entire of society.

I have a friend, who went into hospital, after having scraping feeling on her heart. Her company supported her. She is taking Asprin to thin her blood. I went to visit her, I warned her. I was going through the same thing. Yet she, was, is so brainwashed, because she has a rich husband and 'she is protected', she got her 8 year old daughter vaccinated. In the UK. As people you are obligated to do what you are being told.

The law abiding citizens got the vaccine first. And they would have the second vaccination, and the boosters, why because they trust their doctors. This is a complete mind game. I am safe 'because', is what you sell your own mind. This whole s*it show is about hiding crime. We as people think these things are being taken care of. So we don't question.

Nevermind that, we are being sold climate crisis, when all these medications come in plastic bottles, millions and millions of pills in millions and millions of big and small plastic bottles and the pills don't even fill the bottle. Plastic needles.

And what they use to shut you up is attack your education, you are not educated enough to speak to me or question me. I am educated enough to see exactly what is going on, that leaves the educated in question??!! What makes us human?

And what the hell is a whistle blower? Who created that term, is it not; you are either breaking the law or you are not breaking the law?

Let me not start on the WiFi and the fun they are having with your covid vaccine and your WiFi.

Now they want to sell us war??!!

It is simple, this is about good and bad people, and it is our duty as good people to save our children from harm.

Janet Levatin says:

Cheryl Bray says:

yes...but I think he will get there...He is well aware that the science underpinning the vaccine program is “less than rigorous” shall we say. Give him some time. For many people, this is just the beginning of the discovery of the depths of governmental and scientific corruption.

anglosvizzera says:

September 27, 2022 at 6:01 pm

I think Dr Malhotra needs to look much more closely into other vaccines. Start with Gardasil. Look at the research by Dr Chris Exley into the harms of aluminium adjuvants. Malhotra's clearly the sort of person to change his views given more information and I am sure he will change his mind and learn to consider vaccines individually, not “en masse”! Maybe he could read Dr Richard Halvorsen's book about vaccines aimed at parents, which he wrote after doing a bit of research for an article about the MMR for a Sunday supplement, research that ended up taking about 6 years because of what he found out about children's vaccines. Stuff that he had never been taught at medical school.

There is NO COVID – it is a computer-generated gene sequence.
Refer to Dr. David Martin who provides patents that have been taken out for “covid”, a patent is taken out for something that is “invented” NOT naturally occurring – NO ISOLATION of original “covid” ever done
+ the FRAUDULENT use of the rtPCR test (created by Kary Mullis – he stated the “test” was NOT for diagnosing infectious diseases, it was a laboratory procedure for analysing genetic sequences).
So all very well this “expert” spouting “some” truths but plainly ignoring others!!!

Data from Surrey hospital sent data ,graphs showing when patients were given cotrimoxazole drug they got better with in 48 hours most not needing oxegon yet since last april2020 our UK government have never been in contact with the emernent chest consultants. Mr Johnson, Mr Whitty and Mr Hancock know of the data check the government Hansard records you will find that's fact .Pls look the early data up. Ssrn the beneficial effects of oral trimiprim or cotrimoxazole in patients with severe covid 19a case series improved. Oct 2021 On bbc parliament time a male conservative mp asked Matt Hancock why are we still not using cotrimoxazole drug in the UK when it's now being use in Bangladesh and irqui with great results and papers are published on it Mr Hancock replied he would write to him. So you see they werd a aware of this old tried tested for use safely licensed drug stops the cykine storm effect which is pneumonia and it stops the immune system failing and long term covid syndrome occurring. Big question is why have they never contacted the UK doctors why. Mr Whitty advised all nhs to use remderpair cost around 70.00cotrimoxazole is around four pounds for a week's supply available from the gp .Mr Whitty in his role will know exactly what the cykine storm effect which is the critical time is in patients with severe covid 19. Shame on them all lives could have been saved ,could have been give to the old people in homes who were dying .kind regards lady Davis

Dear Dr. Malhotra, please ask our government why they have never contacted the u.k emernent chest consultants and team who sent this data in April 2020 ssrn the beneficial effects of oral trimiprim or cotrimoxazole in patients with severe patients with severe covid 19 a case series improved shows this old tried tested for use safely licensed drug stops the cykine storm effect which is pneumonia and it stops the immune system failing and long term covid syndrome occurring. Mr Whitty, Mr Hancock and Mr Johnson got that data bug have not acted upon it . Matt Hancock has been asked more then once in parliament check the Hansard records you will find that is factual. Feb 2021 improved data was sent to the therputic department set up for drugs for covid 19 we wonder who headed that department again silence, Mr Whitty held three drug trials in 2020 ,cotrimoxazole was not in those trials why not is the big question. Mr Whitty as a scientist will be well aware of how the cotrimoxazole drug not only stops the cykine storm effect it stops the immune system failing and long term covid syndrome occurring. Oct 2021 on BBC tv parliament time a male conservative mp asked Mr Hancock why are we still not using cotrimoxazole drug in the UK was put several times to Matt Hancock why are we still not using cotrimoxazole drug in the UK was put several times to Matt Hancock why are we still not using cotrimoxazole drug in the UK when it's now being use in Bangladesh and irqui with great results and papers are published on it Mr Hancock replied he would write to him. Go back to may ,June 2020 Matt Hancock was on t.v stating the nhs was overwhelmed and getting low on oxegon hello the data showed most patients did not need oxegon yet as stated not one of them have contacted those doctors involved for more information on how it works for covid 19 and variants. We have several times emailed all three men ,wrote to them several times silence. What I would like to happen is that all three men are called up to explain why have they not acted or contacted those wonderful chest consaultants who put their lives at risk to save ours and the nurses and staff we all clapped for every Thursday .cotrimoxazole drug is available from the gp surgery this could have been in early stages ,which may have stopped the overwhelming amount of people having to go into hospital and therefore stopping the amount of lockdowns we had to suffer at a cost to our eccony. Again I ask you to asked those in charge to explain to us why

they did not act on a drug that works when the jabs were not out .kind regards lady Davis

Why only now these analyses? The appalling harm/benefit results for the younger people were there since June 2021. Relegated in the supplementary information of their trial report, Pfizer own data pointed to the mRNA vaccine doing more harm than good. I wrote a rapid response to the British Medical Journal with my calculations. My results lost in the noise of influential professionals, including Dr Malhotra, promoting vaccination at the time.

<https://www.bmj.com/content/373/bmj.n1635/rr>

I take some comfort in that I willingly used my own research then and the finding coming from other countries to provide informed consent to those who would sit at my vaccination table at the vaccination centre I helped to set up. Several younger people refused the injection after our long talk. I was known as the “slow vaccinator” at the centre, as I would take my time to discuss harm/benefit, based on age and health status of my patients. We would discuss the data that came from Japan about the bio-

distribution of the mRNA injections, indicating the distribution of spike protein and nano particles throughout most organs, including reproductive organs. Out of seven tables at the centre, my was the only one where younger and healthy people would decide against vaccination. They were building up my Schindler's List. I was politely eased out of the vaccination centre in July 2021.

All this on a background of a non-collaborative MHRA, which in February 2021 refused to give me the full data set on COVID-19 injections adverse reactions, after I had become concerned about the negative reports from Norway/ I am at Firs-tier Tribunal against the MHRA as we speak...

This is just one part of a complex plan that criminals spent several decades developing. Their goal was always to kill people because they want total control of all land, water, people & resources on the planet.

The psychopaths that planned this want to kill billions of people. They plan to convert all survivors to their NWO religion which is the world's fastest growing religion. This is a sample of what they publish. I strongly encourage all people to spend several hours reviewing the information they publish because this is a direct threat to every child living on our planet.

I am an analytical person that spent most of my career working as a buyer/analyst in the HD Truck Industry. I never listened to anyone spreading “conspiracy theories” before July 2020. This is when I saw the evidence with my own eyes that I could not ignore. I picked up my phone & searched “NEWS AROUND THE WORLD” after a reporter said people in Asia were protesting to raise awareness about Police brutality & George Floyd’s death. I knew the people in the video were protesting something closer to home. That news segment is what redirected my attention from the disinformation all of us were exposed to during our entire lifetime. Since then I estimate spending over 6,000 hours reviewing information produced by organizations like the UN, WEF, GLOBAL HEALTH CLUSTER, BAHAI, BIC, GLOBAL BROADBAND COMMISSION, US GOV, EU, GAVI, CEPI, STIMPSON, RAND, UK GOV,

IRANIAN GOV, WORLD BANK, IMF, IPCC & numerous other organizations like Universities the evidence led me to.

I quickly learned the WEF was celebrating its 50th anniversary & Prince Charles said he was celebrating the 50th anniversary of giving his first speech on environmental issues. I listened to hours of Klaus Schwab, Prince Charles & many other “world leaders” speaking about several different topics.

The GREAT RESET was officially launched at the World Economic Forum on June 3rd 2020. This is a link to the video of Prince Charles speaking at the event. This statement is what got my attention when I watched it.

<https://youtu.be/BucTwPegW5k>

<https://youtu.be/8jaTt7sfl1k>

The GREAT RESET is officially sponsored by the WEF & the House of Windsor.

This is a LONG TERM GLOBAL WAR planned & executed by the world's experts in playing the ART OF WAR.

The British Empire was at it's peak of power 100 years ago controlling over 25% of all land, water, resources & people living on the planet. The ONLY thing that changed is our perception after a few generations of people were indoctrinated with propaganda produced using new technologies of motion pictures & broadcast television used in a new industry the powerful liars in the British Monarchy always greatly influenced. Queen Victoria took control of the motion picture industry when technology was invented because it saw the value to use as a tool to manipulate people all over the world.

The BAHAI RELIGION was invented 160 years ago in Iran.

British/BAHAI claim the founder of this new religion that is now the fastest growing religion on earth was a prophet of god.

Iranian Government claims this is a fake religion British Military Intelligence invented during one of the many times England tried to conquer Iran. They said the purpose of this religion was to create chaos & disruption in the Middle East.

Bahai, British & Iranian governments all agree that Iranian Jewish people converted to this new religion in mass numbers after it was invented.

Bahai founder wrote Queen Victoria a letter complimenting the British style of governance saying it was ideal for a ONE WORLD GOVERNMENT.

One of the founders was KNIGHTED by the British & UK GOV has records of paying one of them for services that were not clear in the document.

BAHAI lived in areas where every major conflict occurred after the religion was invented. They instigated problems in Russia before Bolshevik Revolution, Uganda before civil war & other parts of Africa & Europe.

The British killed over 9 million Iranians between 1917-1919 when they cut off the food supply to the country. Iran remembered this clearly when BAHAI started their "EDUCATION" campaign in Iran in the 1940's. The Iranian government recognized this religion as the BRITISH SUBVERSION GLOBAL COLONIALISM TEAM. Parents complained about BAHAI teachers indoctrinating their children with bizarre ideologies. Iran responded by creating new laws banning ADULTS from INDOCTRINATING other people's children with religious ideological beliefs.

Bahai said the helped create the League of Nations as their first attempt at establishing a ONE WORLD GOVERNMENT & the UNITED NATIONS was established as their second attempt to establish a ONE WORLD GOVERNMENT.

US taxpayers fund the UNITED NATIONS. US CONGRESS defend BAHAI anytime they get arrested in other countries for crimes similar to subversion, espionage & treason.

The US/UK/UN respond by accusing the country that arrested BAHAI of violating human rights claiming BAHIA are persecuted for their religious beliefs. The United States imposed economic sanctions against other countries like Iran. The media in the US tells the public IRAN is a terror state but they never discuss the root cause of the conflict.

BAHAI moved to AMERICA in the early 1900's to practice subversion. The UNITED STATES of America is full of multigenerational families that moved to here for the purpose of practicing subversion.

AMERICANS need to look at the lies the media tells today about things like JAN 6TH & the "mostly peaceful protests" in Portland & other parts of our country because their lies will become the truth if repeated over & over while the majority stay silent.

We also need to question & review the history of WWII because Trudeau wanted to create a new law banning holocaust denial. I never questioned the holocaust until I heard about Justin's paranoid reaction to people speaking so I lightly looked into it. I found out there is no evidence to support the claims that over 6 million Jewish people were killed in concentration camps. The Nazis kept meticulous records of their state-sponsored executions. The highest recorded in a one-year period was about 35k if I remember correctly. The bottom line was the number of people killed in state-sponsored executions in concentration camps didn't add up anywhere near 6 million the writers of history repeated over and over again. What happened was terrible but we do need to question the official story all of us were told was true.

We need to consider the possibility the events during WWII were used as a tool to convince other nations like the US to allow Jewish people to immigrate in mass numbers because many countries refused to let Jewish people move to their countries because they had a poor reputation about their chaotic disruptive activities in places they moved to. The US rejected a ship full of Jewish immigrants during WWI because they didn't want the drama. The events in WWII created a reason to encourage other nations to accept a mass relocation of Jewish people that moved all over the world.

Jewish Professors were told to build relationships with people in the AFRICAN AMERICAN community. There was a cultural divide that made things difficult so they were advised to tell them “we have something in common because we were also slaves in Israel.”

Iran warned people in their country about BAHAI control of the BROADCAST TELEVISION industry from the beginning. They also warn the public about BAHAI social justice environmental groups that target people who are not critical thinkers with concepts like they are “saving the planet from climate change.”

Read this posting from 1999 before 9.11.

<https://bahai-library.com/wwwboard/messages98/121.html>

Congress doesn't mention investigating BAHAI after 9.11 attacks.

People need to research ANATOL RAPAPORT because my instinct tells me he was an important person that was involved in planning this biological attack the UN & BAHAI call AGENDA 21. I might be wrong about this because I did not research Anatol yet but I do expect to find evidence of his involvement in getting us to this place we are living in today.

There is so much more very interesting information about this group & other organizations that conspired against all people. I can talk about this stuff all day long.

We need to DEMAND answers from US GOVERNMENT about why they support this radicalized extremist religious group that operates all over the world to secure the interests of BRITISH WANNABE GLOBAL DICTATORS.

WE FUND UN

UN WORKS WITH BAHAI

PLANS TO IMPLEMENT UN/BAHAI ONE WORLD ORDER 15 MONTHS AFTER JULY 2022 ACCORDING TO STIMPSON

WE NEED TO DEFUND UN ASAP & QUICKLY IDENTIFY ALL TREASONOUS LIARS IN US GOV. THEY NEED TO GET IMMEDIATELY REMOVED FROM THEIR POSITIONS BECAUSE THEY BELONG IN JAIL FOR CONSPIRING AGAINST THE PEOPLE THEY ARE SUPPOSED TO REPRESENT. Over 220 congressional records mention BAHAI since the year 2000. These records show us who is working to protect the interests of liars that promote bizarre gender-obsessed curriculum designed to transform our children into believing the UN theme of the day/year.

These people are extremely dangerous because they openly say they will transform our world into one with no borders & all people will speak one common language & practice one common language in the near future.

The UK partnership with US JUSTICE DEPARTMENT signed in 2019 went into effect in October 2022. This agreement gives both governments more access to monitor everything we do. They listen to & record everything we do so please understand nothing you say or do is in private. YOU NEED TO SPEAK LOUD & CLEAR about this threat to everyone you know because the illusion the media creates needs to get torn down & they need to go to jail for their willful intentional deception that was intended to destabilize our country.

This is a REAL WAR with unconventional weapons deployed at the public. DARPA launched a new program that does something with AI & social media in 2020. DARPA also claims to have neuromodulation technologies that can be used to influence the behavior of targeted people using both physical & non-physical interventions. This technology was developed during research for the WHITE HOUSE BRAIN INITIATIVE.

We also need to ACKNOWLEDGE the FACT that the CDC reported that 1 in every 44 children is diagnosed with autism if they were born after 2010. Why the sudden major increase & why didn't the CDC REQUEST INCREASED FUNDING FOR RESEARCH in the 2023 BUDGET? They did ask for a huge increase for ADULT VACCINATIONS & FIREARM RESEARCH because they think it is more important to use our money to fund programs to force us to take vaccines & to pay for research they will use as evidence to take our firearms away.

I hope someone looks at this information more closely because this is closer to the root cause of our problems than anything people widely talk about.

We need to review the history of JEWISH DOCTORS. Why did they have such a terrible reputation?

NO SUBJECT IS OFF LIMITS WHEN ALL OF OUR CHILDREN ARE THREATENED SO GET INFORMED AND START ENGAGING IN CHALLENGING CONVERSATIONS ASAP.

BAHAI operate in plan cycles. We are currently living in a 9 YEAR plan & a 1 YEAR plan. I would not be surprised if they have something major planned to attack people & cause massive global damage in the coming months because they need total chaos before the UN makes their scheduled power play for global governance 15 months after JULY 2022.

AFTER REVIEW ASK WHY YOU PAY TAXES & WHAT YOU PAY FOR.

FIRE THEM ALL ASAP TO SEND A CLEAR MESSAGE TO CRIMINAL LIARS IN GOV.

In Australia we have NSW data which is the only transparent data published. The results speak for themselves. The vaccines do not stop hospitalisation or death. Of interest is that of 2308 people admitted to hospital the past 6 weeks for covid

only 4 were unvaccinated. In the deaths the vast majority of deaths were in the vaccinated.

Undetermined vaccination status indicates that people have been vaccinated but how many doses is undetermined.

Week 27 ending 26/11/22

Of the 25 people who were reported to have died with COVID-19, 18 (72%) were known to have received three or more doses of a COVID-19 vaccine, while 5 had received two doses, 0 had received one dose and 1 had received no doses of a COVID-19 vaccine. The vaccination status of the remaining 1 were unable to be determined.
